

CAMPUS SECURITY

The Board of Trustees is committed to providing a school environment that promotes the safety of students, staff, and visitors to school grounds. The Board also recognizes the importance of protecting district property, facilities, and equipment from vandalism and theft.

The Superintendent or designee shall develop campus security procedures which are consistent with the goals and objectives of the district's comprehensive safety plan and site-level safety plans. Such procedures shall be regularly reviewed to reflect changed circumstances and to assess their effectiveness in achieving safe school objectives.

Surveillance Systems

In consultation with the district's safety planning committee, other relevant stakeholders and staff, the Superintendent or designee shall identify appropriate locations for the placement of surveillance cameras. Cameras may not be placed in areas where students, staff, or community members have a reasonable expectation of privacy. Any audio capability on the district's surveillance equipment shall be disabled so that sounds are not recorded.

Prior to the operation of the surveillance system, the Superintendent or designee shall ensure that signs are posted at conspicuous and targeted locations around school buildings and grounds. These signs shall state that the facility uses video surveillance equipment for security purposes and that the equipment may or may not be actively monitored at any time. The Superintendent or designee shall also provide prior written notice to students and parents/guardians about the district's surveillance system, including the locations where surveillance may occur and that the recordings may be used in disciplinary proceedings and/or referred to local law enforcement, as appropriate.

To the extent that any images from the district's surveillance system create a student or personnel record, the Superintendent or designee shall ensure that the images are accessed, retained, and disclosed in accordance with law, Board policy, administrative regulation, and any applicable collective bargaining agreements.

CAMPUS SECURITY

The Superintendent or designee shall develop a campus security plan which contributes to a positive school climate, fosters social and emotional learning and student well-being, and includes strategies to:

1. Secure buildings and interior spaces from outsiders and discourage trespassing

These strategies may include installing locks, requiring visitor registration, providing staff and student identification tags, and patrolling of places used for congregating and loitering.

2. Discourage vandalism and graffiti

These strategies may include plans to immediately cover graffiti and implement campus beautification

3. Control access to keys and other school inventory

4. Detect and intervene with school crime

These strategies may include creating a school watch program, increasing adult presence and supervision, establishing an anonymous crime reporting system, analyzing school crime incidents, and collaboration with local law enforcement agencies, including providing for law enforcement presence.

All staff shall receive training in building and grounds security procedures.

Locks

All state-funded new construction and modernization projects shall include locks that allow doors to classrooms and any room with an occupancy of five or more persons to be locked from the inside. Student restrooms and doors that lock from the outside at all times are not required to have locks that can be locked from the inside. (Education Code 17075.50, 17583; 24 CCR 1010.1.9, 1010.1.11)

Keys

All keys used in a school shall be the responsibility of the principal or designee. Keys shall be issued only to authorized employees who regularly need a key in order to carry out their job responsibilities.

The principal or designee shall create a key control system with a record of each key assigned and room(s) or building(s) which the key opens.

Keys shall never be loaned to students, parents/guardians, or volunteers, nor shall the master key ever be loaned.

Any person issued a key shall be responsible for its safekeeping. The duplication of school keys is prohibited. If a key is lost, the person responsible shall immediately report the loss to the principal or designee and shall pay for a replacement key.
