

**SELECTION AND EVALUATION OF INSTRUCTIONAL MATERIALS**

The Board of Trustees desires that district instructional materials, as a whole, present a broad spectrum of knowledge and viewpoints, accurately reflect and value society's diversity, stimulate thought, the exploration of ideas and intellectual exchanges, and enhance instructors' ability to educate all students through the use of multiple teaching strategies and technologies. The Board shall adopt instructional materials based on a determination that such materials are an effective learning resource to help students achieve grade-level competency and that the materials meet criteria specified in law. Textbooks, technology-based materials, and other educational materials shall be aligned with academic content standards and the district's curriculum to ensure that they effectively support the district's adopted courses of study.

The Board shall select instructional materials for use in grades K-8 that have been approved by the State Board of Education (SBE) or that have, during the district's review process, been determined to be aligned with the state academic content standards adopted pursuant to Education Code 60605 or the Common Core Standards adopted by SBE, which includes instructional minutes and English language arts that are aligned to Common Core Stated Standards. (Education Code 60200, 60210)

In selecting or adopting instructional materials, the Board shall consider the recommendation of the Superintendent or designee and/or an advisory committee established to review the materials.

The degree to which every student has sufficient access to standards-aligned instructional materials shall be included in the district's local control and accountability plan. (Education Code 52060)

**Sufficiency of Instructional Materials *and Public Hearing***

The Board shall annually conduct one or more public hearings on the sufficiency of the district's instructional materials, including textbooks, technology-based materials, other educational materials, and tests. Technology-based materials include, but are not limited to, software programs, video disks, compact disks, optical disks, video and audio tapes, lesson plans, databases, and the electronic equipment required to make use of those materials by students and teachers as a learning resource. (Education Code 60010, 60119)

The hearing shall be held on or before the end of the eighth week from the first day students attend school for that year. (Education Code 60119)

The Board encourages participation by parents/guardians, teachers, interested community members, and bargaining unit leaders at the hearing. Ten days prior to the hearing, the Superintendent or designee shall post a notice in three public places within the district containing the time, place, and purpose of the hearing. The hearing shall not take place during or immediately following school hours. (Education Code 60119)

At the hearing(s), the Board shall determine, through a resolution, whether each student in each school, including each English learner, has sufficient textbooks and/or instructional materials that are aligned to the state content standards adopted by SBE and are consistent with the content and cycles of the state's curriculum frameworks adopted by SBE in each of the following subjects: (Education Code 60119)

1. Mathematics
2. Science
3. History-Social Science

4. English language arts, including the English language development component of an adopted program
5. World Languages
6. Health

In making these determinations, the Board shall consider whether each student has sufficient textbooks or other instructional materials to use in class and to take home. This does not require that each student have two sets of materials. However, the materials shall not be considered sufficient if they are photocopied sheets from only a portion of a textbook or instructional materials copied to address a shortage. (Education Code 60119)

If materials are in a digital format, they shall be considered sufficient as long as each student, at a minimum, has and can access the same materials in the class and to take home as all other students in the same class or course in the district, and has the ability to use and access them at home. (Education Code 60119)

If the Board determines that there are insufficient textbooks or instructional materials, the Board shall, by resolution, provide information to classroom teachers and to the public setting forth, for each school in which an insufficiency exists, the percentage of students who lack sufficient standards-aligned textbooks or instructional materials in each subject area and the reasons that each student does not have sufficient textbooks or instructional materials. The Board shall submit a copy of the resolution to the County Superintendent of Schools no later than three business days after the hearing. The Board shall take any action to ensure that each student has sufficient materials within two months of the beginning of the school year in which the determination is made. (Education Code 60119)

In addition, if the County Superintendent, in accordance with Education Code 1240, makes the district aware of a school that does not have sufficient textbooks or instructional materials, the district shall take any action to ensure that each student has sufficient materials within two months of the beginning of the school year.

### **Prohibition Against Refusal to Approve or Prohibit the Use of Specified Instructional Materials**

The use of any textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library shall not be rejected or prohibited by the Board or district on the basis that it includes a study of the role and contributions of any individual or group consistent with the requirements of Education Code 51204.5 and 60040, unless such study would violate Education Code 51501 or 60044. (Education Code 243)

### **Complaints**

Complaints concerning instructional materials shall be handled in accordance with Board Policy 1312.2 – Complaints Concerning Instructional Materials, Board Policy 1312.3 – Uniform Complaint Procedures, and or Administrative Regulation 1312.4 – Williams Complaint Procedures, as applicable.

**SELECTION AND EVALUATION OF INSTRUCTIONAL MATERIALS****Review Process**

The district's review process for evaluating instructional materials shall involve teachers in a substantial manner and shall encourage the participation of parents/guardians and community members in accordance with Education Code 60002. The review process may also involve administrators, other staff who have subject-matter expertise, and students as appropriate. The Superintendent or designee shall seek input from stakeholders with diverse backgrounds and perspectives.

If the district is considering the use of instructional materials for grades K-8 that have not been adopted by the State Board of Education (SBE), the Superintendent or designee shall ensure that a majority of the participants in the district's review process are classroom teachers who are assigned to the subject area or grade level of the materials. (Education Code 60210)

The Superintendent or designee may establish an advisory committee to conduct the review of instructional materials.

The Superintendent or designee shall present to the Governing Board recommendations for instructional materials and documentation that supports the recommendations.

All recommended instructional materials shall be available for public inspection at the district office.

When possible, the district may pilot instructional materials in a representative sample of classrooms for a specified period of time during a school year, in order to determine the extent to which the materials support the district's curricular goals and academic standards, and accurately reflect and value society's diversity. Feedback from teachers piloting the materials shall be made available to the Board before the materials are adopted.

**Criteria for Selection and Adoption of Instructional Materials**

1. Are aligned to the content standards adopted by the State Board of Education (SBE) and consistent with the content and cycles of the curriculum framework adopted by SBE

For grades K-8, only instructional materials on the list of materials adopted by the SBE and/or other instructional materials that have not been adopted by the SBE but are aligned with the state academic content standards or the Common Core State Standards may be recommended for selection.
