

EMPLOYEE USE OF TECHNOLOGY

The Board of Trustees recognizes that technological resources enhance employee performance by offering effective tools to assist in providing a quality instructional program; facilitating communications with parents/guardians, students, and the community; supporting district and school operations; and improving access to and exchange of information. The Board expects all employees to learn to use the available technological resources that will assist them in the performance of their job responsibilities. As needed, employees shall receive professional development in the appropriate use of these resources.

Employees shall be responsible for the appropriate use of technology and shall use district technology primarily for purposes related to their employment.

District technology includes, but is not limited to, computers, the district's computer network including servers and wireless computer networking technology (wi-fi), the Internet, email, USB drives, wireless access points (routers), tablet computers, smartphones and smart devices, telephones, cellular telephones, personal digital assistants, pagers, MP3 players, wearable technology, any wireless communication device including emergency radios, and/or future technological innovations, whether accessed on or off site or through district-owned or personally owned equipment or devices.

The Superintendent or designee shall establish an Acceptable Use Agreement which outlines employee obligations and responsibilities related to the use of district technology. Upon employment and whenever significant changes are made to the district's Acceptable Use Agreement, employees shall be required to acknowledge in writing that they have read and agreed to the Acceptable Use Agreement.

Employees shall not use district technology to access, post, submit, publish, or display harmful or inappropriate matter that is threatening, obscene, disruptive, sexually explicit, or unethical or that promotes any activity prohibited by law, Board policy, or administrative regulations.

Harmful matter includes matter, taken as a whole, which to the average person, applying contemporary statewide standards, appeals to the prurient interest and is matter which depicts or describes, in a patently offensive way, sexual conduct and which lacks serious literary, artistic, political, or scientific value for minors. (Penal Code 313)

The Superintendent or designee shall ensure that all district computers with Internet access have a technology protection measure that protects against access to visual depictions that are obscene, child pornography, or harmful to minors and that the operation of such measures is enforced. The Superintendent or designee may disable the technology protection measure during use by an adult to enable access for bona fide research or other lawful purpose. (20 USC 6777; 47 USC 254)

It is recommended that districts notify employees that they should have no expectation of privacy when using district equipment or technological resources. In *City of Ontario v. Quon*, the U.S. Supreme Court held that a search of an employee's pager messages was reasonable because the search was motivated by a legitimate work-related purpose and was not excessive

EMPLOYEE USE OF TECHNOLOGY (cont.)

BP 4040(b)

in scope. In addition, the city had adopted a policy stating that employees should have no expectation of privacy or confidentiality when using city equipment.

The Superintendent or designee shall annually notify employees in writing that they have no reasonable expectation of privacy in the use of any equipment or other technological resources provided by or maintained by the district, including, but not limited to, computer files, email, text messages, instant messaging, and other electronic communications, even when provided their own password. To ensure proper use, the Superintendent or designee may monitor employee usage of district technology at any time without advance notice or consent and for any reason allowed by law.

In addition, employees shall be notified that records maintained on any personal device or messages sent or received on a personal device that is being used to conduct district business may be subject to disclosure, pursuant to a subpoena or other lawful request.

Employees shall report any security problem or misuse of district technology to the Superintendent or designee.

Inappropriate use of district technology may result in a cancellation of the employee's user privileges, disciplinary action, and/or legal action in accordance with law, Board policy, and administrative regulation.

EMPLOYEE USE OF TECHNOLOGY**Online/Internet Services: User Obligations and Responsibilities**

Employees are authorized to use district equipment to access the Internet or other online services in accordance with Board policy, the district's Acceptable Use Agreement, and the user obligations and responsibilities specified below.

1. The employee in whose name an online services account is issued is responsible for its proper use at all times. Employees shall keep account information, home addresses, and telephone numbers private. They shall use the system only under the account number to which they have been assigned.
2. Employees shall use the system safely, responsibly, and primarily for work-related purposes.
3. Employees shall not access, post, submit, publish, or display harmful or inappropriate matter that is threatening, obscene, disruptive, or sexually explicit, or that could be construed as harassment or disparagement of others based on their race, ethnicity, national origin, sex, gender, sexual orientation, age, disability, religion, or political beliefs.
4. Employees shall not use the system to promote unethical practices or any activity prohibited by law, Board policy, or administrative regulations.
5. Employees shall not use the system to engage in commercial or other for-profit activities without permission of the Superintendent or designee.
6. Copyrighted material shall be posted online only in accordance with applicable copyright laws.
7. Employees shall not attempt to interfere with other users' ability to send or receive email, nor shall they attempt to read, delete, copy, modify, or forge other users' email.
8. Employees shall not develop any classroom or work-related web sites, blogs, forums, or similar online communications representing the district or using district equipment or resources without permission of the Superintendent or designee. Such sites shall be subject to rules and guidelines established for district online publishing activities including, but not limited to, copyright laws, privacy rights, and prohibitions against obscene, libelous, and slanderous content. Because of the unfiltered nature of blogs, any such site shall include a disclaimer that the district is not responsible for the content of the messages. The district retains the right to delete material on any such online communications.
9. Users shall report any security problem or misuse of the services to the Superintendent or designee.
